# MICO BATHROOM BOOK 2017

Choosing your new bathroom – its overall design and how it will function for you and your family – can be both exciting and daunting.

Whether it's a revamp of an existing bathroom or a brand-new design, there is a lot to think about.

What tapware will look best, do you prefer a gentle or vigorous shower, is there space for a bath, what style of vanity matches your personal taste and the style of your home. How much do you want to spend?

The Mico Bathroom Book 2017 presents options for all these considerations, and all the other elements, hidden or apparent, that will ensure your new bathroom not only meets the requirements of you and your family, but also fulfills your dreams.

As you turn the pages you will discover a series of collections featuring carefully selected products from Europe's leading manufacturers alongside cutting-edge and established New Zealand brands.

Tips on planning will help you decide where to start and how to move through the process. If you are concerned about the environment and sustainability you will find the answers you need.

Let this book be your guide....

## 74 ACCESSORIES

Mirrors, electrical, laundry products and installation accessories

# BATHROOM TRENDS

Bathroom trends for the upcoming year have evolved into bigger and bolder, the basic two dimensional aesthetic is no more with deeper textures and layers consuming the bathroom space.

Many of us have moved on from items that feel sharp, hard edged and industrialised – a common theme seen in 2016 bathrooms. The race track shape, almost rectangle, with sexy curves has seduced us to take a closer look at our interior spaces and trends insist the 'touch appeal' is now an essential to any design. Think curved freestanding baths to sink into and sleek basin mixers or shower tapware.

A piece of furniture or a home décor item lovingly crafted by an artisan as an original individual piece, rather than mass produced instantly adds a distinctive and personal touch to any interior space. Original hand painted tiles or hand crafted pendant lights can add an extra personal touch to these spaces also.

When designing the bathroom space; hand crafted stone, concrete, timber or painted vessels placed on beautiful handcrafted cabinetry crafted from local timbers or exotic veneers can be stunning. Custom designed pieces i.e. timber tops of vanities or complete vanity sets, can become an exquisite feature in any bathroom. Examples of this are shown in the Bathroom Collections (page 8-15).

The concept of chargeable/enlarged imagery on surfaces will transcend into bathroom joinery and enable the device to be your news, music or social media whilst bathing. For this reason the bath will never be out of trend.

Lighting is also high on the specification list when designing the bathroom. Strips of LED lights can range from a basic warm light to multi light changing options, creating the mood you so desire. Ambient lighting casting out from under the mirror cabinet or flooding down a wall of tiles are a truly cost effective way in really making your bathroom an oasis.

We'll see 4 eclectic trends pulled through to bathroom products, colour palettes and textural devices; Fade, Discover, Proclaim and Invisible. Colour is immensely important, polarising between simple and honest or unassuming and stronger with more saturated tones that make a bold statement.

Texture is a key feature, not just with tangible touch and feel, but with colour diffusion and material highlights. Uneven patterning, textural opposites, blocked colour contradictions and a transparent opaque look.

**Fade** - Subtle watery/muddy paint hues and tones applied with the ombre effect for more definition. A feeling of softness, calmness and light seems to be the desired result. Perfect for using the pantone colours of the year; Rose Quartz 13-1520 & Serenity 15-3919, which, when subtly featured in a bathroom will add a harmonious touch.

**Discover** - Slick and rough i.e. a freestanding bath with a rough rock exterior. Modern details mixed with old world items. The colour discovered from these processes can vary from a deep aqua tone to the clarity of river stone grey.

**Proclaim** - A hyper natural atmosphere. Think digital printed botanicals onto wall papers, tiles and fabrics. Quirky and unusual based on the natural rich hues of the earth.

**Invisible** - Monochromatic colour tones paired with transparent weaves. Looking for the blurred out version of colour. Whitened print over coloured wallpaper, fabric or tiles. Sheer fabric covering windows for the filtered light. The foamy and water droplets look gives a space a multi layered pure feel.

# RAW

## COLLECTION ONE

Targeted at a young and “hip” demographic, this bathroom from The Block NZ: Villa Wars screams individuality and modern glamour. From the dramatic matt black features to the raw tones of the timber panelling, Collection One is a modern space with lots of it!

Trends used in this space are obvious; timber features, the matt black of the tapware, vanity and heating rail as well as the copper of the lights and plant pot.

The Progetto Pure freestanding bath is deep, enough to sink back and relax amongst obvious dark surfaces with streaming light that reveals the space. Keeping with consistency, the matching Progetto Icon basin is practical in depth and width, set on a custom made timber top of the St Michel City Wall Hung Vanity – plenty of space for everything the owner needs. The raw timber of the vanity top and wall is a stark contrast against the black of the Paffoni Ringo basin mixer with spout.

Hard angles and bold edges are incorporated into the space through the bath platform, the timber panel divider and the slick shapes of all the bathroom products. The hexagon tiles are a classy geometric effect and add to the bathroom without fighting with any of the other attributes. They add a playful yet stylish element to the bathroom.

An excellent idea for any bathroom with a toilet - use a dividing wall to separate the least desired part of the bathroom while delighting the imagination for an artistic or inventive design with a divider of your choosing. Another delightful spacial feature is the wall recess,

preventing the vanity from taking up extra space and also creating a functional area where the ablutions can take place.

A space full of artistic expression – it's easy for

you to incorporate your own individuality into your bathroom. Think custom designs, colour blends, textures, lighting and feature pieces. Mico Bathrooms can work with you to achieve your dream bathroom!

*Progetto Pure Freestanding Bath and  
DCS Little C Black Heated Towel Rail*

**Adesso** Soft Freestanding Bath, **St Michel** City Wall Hung Vanity, **Ideal Standard** Round Basin and Milano Basin Mixer Extended, **Heirloom** Genesis Towel Rail

## COLLECTION TWO

Classic, timeless, serene. Perfect words to describe this bathroom from The Block NZ: Villa Wars. With a focus on luxury, the designers have opted for an elegant touch on all features – chrome finishings on tapware and handles, moody stone tiles and the stand out bath.

Practical and luxurious, the generous shower sits conveniently in the corner. Having a wall recess in the shower is a handy nook for amenities while the glass doors keep the area open and the aesthetics visible.

The sizable 1200mm St Michel City wall hung vanity provides lots of storage space and a large vanity top for the user. Perched on top is the simple yet spacious Ideal Standard Round basin and Milano extended Basin Mixer in chrome. The added height of the mixer turns what is usually a basic element of the bathroom into a glamorous

aspect while the chrome factor is timeless. The St Michel Dante Plus 3 door Mirror Cabinet adds further storage space and reflects both the dark grey stone of the tiles and the fresh textured white of the feature wall. A plain wall is transformed into a focal point with patterned tiles and varying textures adding interest. The tiles don't quite extend to the top of the ceiling as the white of the ceiling flows down creating the illusion of more space in quite a narrow room.

Living walls were a highlight in 2016 and the living wall in this bathroom is no exception,

being quite literally, a breath of fresh air. It livens and lightens the room, contrasting against the grey tiles. The raw timber shelves add a scandinavian touch.

And the highlight of the room – the standalone Adesso Edge freestanding bath. A luxury in any bathroom, this bath completes the symmetry and balance of the room, demonstrating that it's not just what you put in your bathroom, it's how and where you place it that also counts. It's so valuable to think about the layout of the room – be visual and be creative.

*St Michel* City Wall Hung Vanity, *Ideal Standard* Round Basin and *Milano* Basin Mixer Extended

*Ideal Standard* Splash Shower Column

# COLLECTION THREE

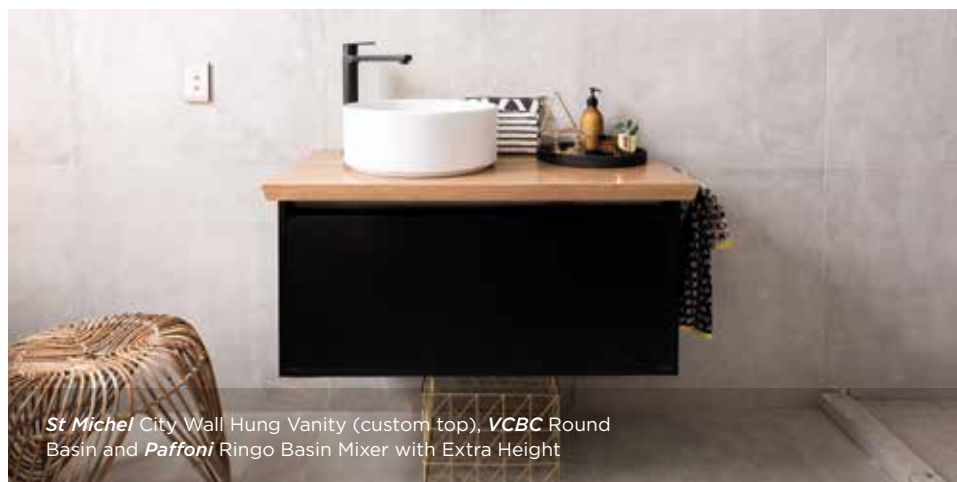

Comfort and relaxation was the aim of the game in this house on The Block NZ: Villa Wars and has been clearly pulled through to the bathroom. Another collection choosing to integrate the simplistic trend of matt black, timber and metal; this bathroom is modern, spacious and quirky. A neutral palette of greys and whites make the black features and iconic green moss wall really pop.

Highlighted by the focal point of the room, the Adesso Edge freestanding bath is a luxurious oasis complemented by the unique Fantini Mare bath/shower set in black (deck mounted). Complete with mixer and pull out shower head, this is right up with the latest in European bathroom trends.

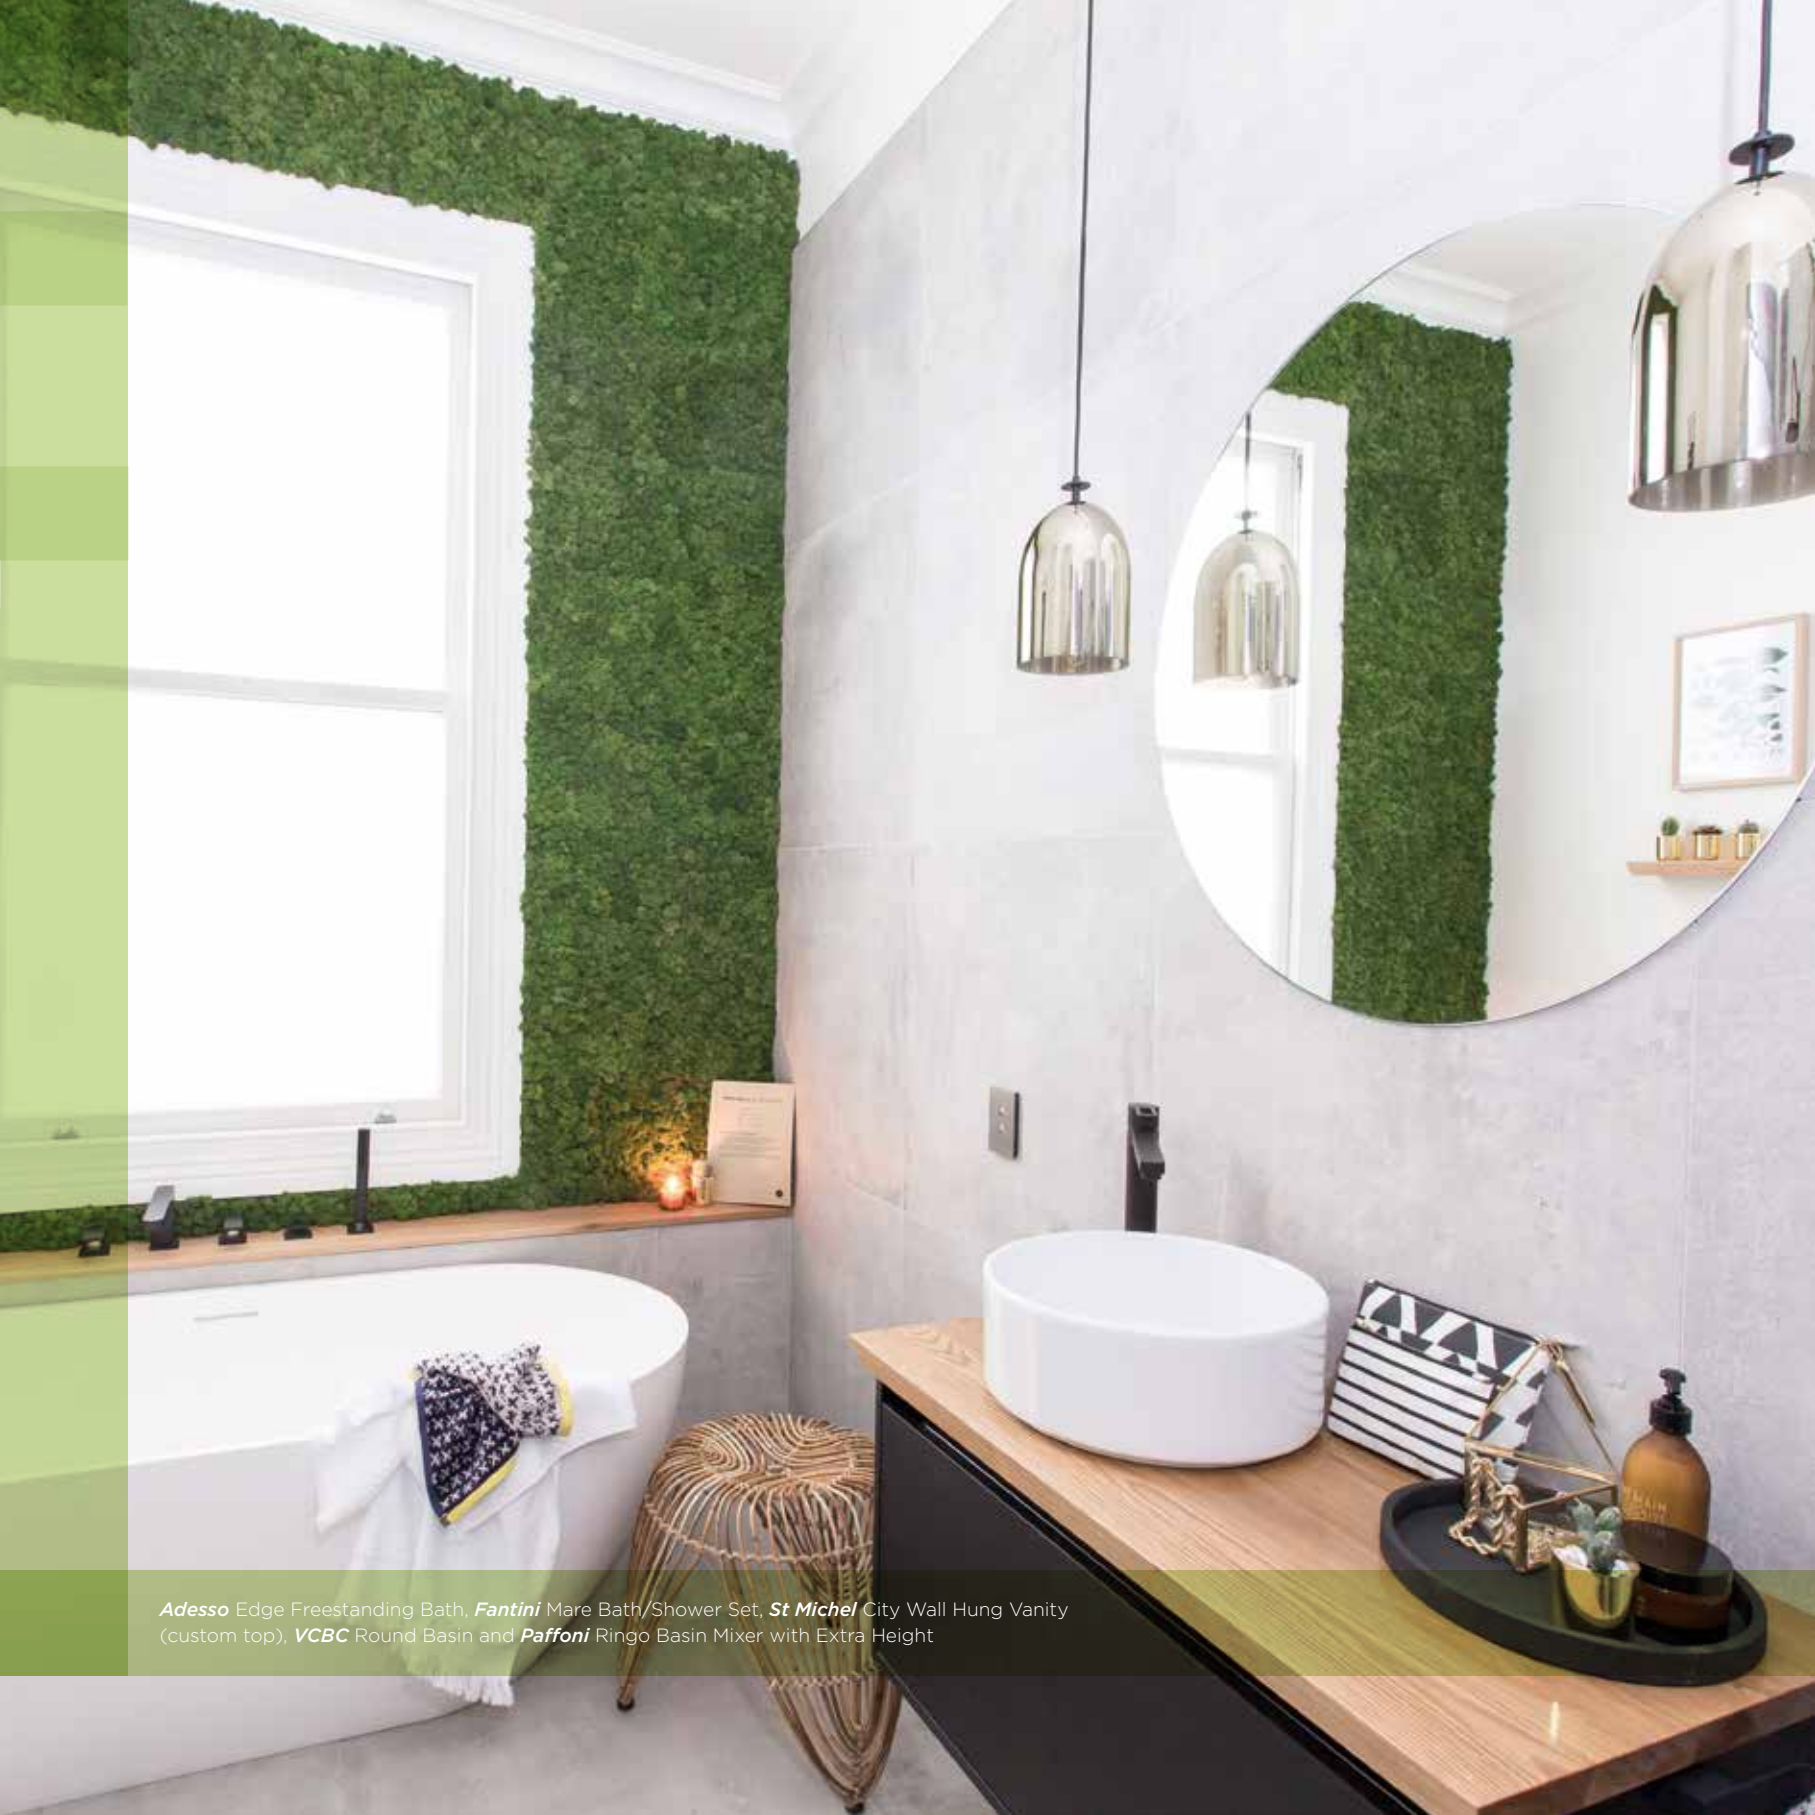

In the shower the matt black Fantini Mare Round Rainhead and Slide Shower epitomise ease of use and luxury with glass shower doors again preventing an attractive element from being hidden. Paffoni Ringo Shower Mixers keep the matt black look consistent across the space.

The St Michel City Wall Hung Vanity in Black Velvet is simplistic yet a sophisticated embellishment of this space; striking with the custom made timber top which has a generous surface space. Placement of the sizable VCBC Round Basin is important. Placed in the centre of vanity can sometimes limit space on the vanity top whereas in this collection, the designers have strategically situated the basin to the side. The Paffoni Ringo Basin Mixer in black with extra height is a perfect attribute to enhance the iconic features of the room.

The large grey tiles are both pleasant and practical - keeping the room cool when needed or warm with underfloor heating while also being easy to clean. A great living wall feature with little to no maintenance, the moss wall is now available from selected Mico Bathrooms in a range of colours, ask one of your friendly showroom consultants for more information. We all benefit from a living wall which provides noise reduction and a sense of wellbeing.

*Adesso* Edge Freestanding Bath, *Fantini* Mare Bath/Shower Set, *St Michel* City Wall Hung Vanity (custom top), *VCBC* Round Basin and *Paffoni* Ringo Basin Mixer with Extra Height

*St Michel* Bliss Wall Hung Vanity, *Hansgrohe* Puravida Basin Mixer and *Ideal Standard* Milano Floor standing Bath Filler

# APRIL

## COLLECTION FOUR

This winning high end bathroom from The Block NZ: Villa Wars encapsulates sleek design, minimalism and exquisite luxury. While the most expensive of all four collections, this look is still achievable for any bathroom.

The designers were obviously thinking practicality; the soothing tones, fundamental design and chrome features of both tapware and handles have an elegance that won't date. Placing the Elementi Enigma Overhead Wall Shower Dumper to the side of the slide shower provides an efficient method of showering for any height. Having a wall hung toilet is subtle and inconspicuous within the room, letting the other bathroom products shine.

Using the same white chrome Hansgrohe Puravida range across all the tapware for consistency maintains the modern theme within the space and the curved edges of the bath soften the bathroom's modern lines. Incorporating a natural and tranquil element like plants is a great pop of colour and provides oxygen to the room.

A grand 1200mm St Michel Bliss Vanity with Crystal Quartz top provides storage space through 2 drawers and a cupboard and is available in many sizes to cater to all sized bathrooms. The mirror is large, utilising the whole wall recess and good lighting will make the morning routine smoother.

The Ideal Standard Milano Bath filler is the perfect accompaniment to a freestanding bath

and the hand shower attached adds ease to the leisure of bathing. Another narrow space to undertake, the textured wall pattern elongates the room while also enlivening the soft grey palette.

Fitting large tiles from the floor up one wall also expands the space and continuing the tiles into the showers creates a delightful capsule.

*Elementi* Enigma Overhead Wall Shower Dumper and *Hansgrohe* Puravida Slide Shower

# HELPFUL HINTS

Think like an interior designer and get ready to create your new exquisite retreat.

## LAYOUT

- When planning your layout think about first impressions. In particular, avoid having the toilet in direct line of sight to the doorway.
- If you have a small space a wall hung vanity and toilet suite will give you the importance of more space in your new bathroom.
- Where possible, place your heated towel rail near the entrance to your shower so that you can reach your towel easily. However, it is recommended that you check with your electrician to make sure that where you want to place it is in the electrical safety zone and therefore NZ Certification approved.
- Always look to place your fan above the shower enclosure for maximum ventilation / extraction of steam and condensation.
- Add plants / greenery to bring it all to life, such as the clever new concealed Woolly Pockets that allow you to hang plants against a wall.
- If you are upgrading a bathroom situated on a concrete pad, there will likely be considerable extra expense involved if you are planning to relocate your existing plumbing points, so be sure to factor this into your budgeting process.
- Look to design-in a "general floor waste" into your new bathroom as a safety measure for overflowing water, especially when there is a bath in the area. This is especially recommended for upstairs bathrooms to prevent water flooding the ceiling below.
- If you love clean lines, create practical storage without cluttering the room by recessing your mirror cabinet. Just make sure to choose one with suitable depth for your wall cavity - Mico have a range of cabinets available from a 120mm depth projection, suitable for those smaller cavity spaces.

## LIGHTING AND STYLE

- Think about natural light. Place your mirror so that you face it with a good level of natural light if possible.
- Consider LED recessed downlights to save on energy consumption and bulb replacement, but make sure to choose a soft white so as to not over-saturate the room with light.
- A simple way to achieve a coherent style for your new bathroom is to decide what shape you want to accentuate, and aim to choose products that are in keeping with the character, starting with your basin. For example square with rounded corners (Forefront square combined with Paffoni Ringo or Red tapware) then extend that thinking when choosing the shape of your mirror and accessories.

Reve Basin and Margaux Basin  
Mixer and Accessories by **Kohler**

## PRODUCTS

- If you are planning a walk-in shower, be sure to place your shower mixer somewhere near the entrance so that it's easy to reach from the outside and you don't get showered with cold water when activating the shower mixer.
- Always use all pressure tapware in an unequal pressure environment, which balances the differing flow rates between hot and cold water feeds. Otherwise you may be disappointed with your shower's performance.
- Different Vitreous China brands have different colours. Keep to the same brand when selecting Vitreous China products for your bathroom where possible.
- When selecting a toilet suite with an in-wall cistern, make sure that your plumber and/or builder checks that the wall cavity has enough room for the waste outlet through the floor.
- Also, make sure the plumber lifts the height of the pan either to comfort height so you can vacuum or mop under it. Otherwise, you will have to get down on your hands and knees to clean.
- Upgrade your mirror cabinet to one with a demister to ensure a crystal clear reflection in the mirror after your shower.
- Specifying a glazing protection product such as Diamond Fusion on the shower glass will extend the life of the glass and enhance its everyday appearance.
- These applications can also be utilised on tiled surfaces and are especially handy for darker / matt tiles to reduce the appearance of watermarking and grime build-up.
- Some basins and vanities don't come with a waste, bottle trap or overflow cover, so always check what accessories come with your selected product for budgeting purposes.
- Instead of the traditional heat-n-vent type ventilation units, consider an attractive recessed fan such as the stylish Vентech frameless fan surround (page 95) in combination with underfloor heating for warmth. Consider investing in the most powerful fan you can afford, especially if your bathroom has a high level of usage.

Axor Nendo by **Hansgrohe**

# BEFORE YOU START

There's one room in every home where sanctuary is found, personal intimacy is cherished and time is spent to reflect on oneself. Creating the perfect bathroom requires not only a marriage of form and function but space and aesthetics as well.

Whether your goal is to create a functional, comfortable family bathroom or a private retreat, there are numerous handy tips and hints that can help you get things moving!

Mico Bathrooms has many years of experience in the industry, and is highly regarded for its selection of products that combine quality with style.

All items are sourced exclusively from reputable manufacturers. Our team of nationwide Bathroomware Specialists can assist you when selecting your bathroom products, as well as introduce you to reliable tradesmen for all your installation requirements.

## GETTING STARTED

There are always a variety of options when it comes to buying a bathroom. You can go at it alone, sourcing each individual item and hiring a professional tradesman as required, or you may choose to use an interior designer, architect or builder. As a specialist Bathroomware company, Mico Bathrooms can help with whichever option you choose. Having developed strong relationships within the design industry, our bathroom consultants are experienced in working together with clients and designers to accurately specify product according to plans and budgets.

## HOW TO GET THE MOST FROM MICO BATHROOMS

Call into your nearest Mico Bathrooms branch anytime Monday to Saturday\* if you would like to talk to a Bathroom Specialist. Let us know what time you will be coming and we will make sure one of our qualified specialists is available to answer all your questions.

The Mico Bathrooms team will work together with you or your designer to ensure you have all the products and installation items to finish the project.

They will also provide all the quotes and specification details required for your builder, plumber or drainlayer. Mico Bathrooms will order the goods for you once the deposit is paid, ensuring your products will cost you exactly as per the stated quotation.

Our prices are in \$NZD and include GST.  
NB: Supply availability, prices and codes may change throughout the year. Mico Bathrooms reserves the right to alter accordingly.

## DELIVERY

Much of what you see in this catalogue is available within five working days. However, some furniture, spa baths and designer items are manufactured to order and can have a lead time of some weeks. More specialised products can take up to three to four months if being delivered from the Northern Hemisphere.

## RETURNS OR EXCHANGE POLICY

- I.** Goods supplied in accordance with the buyer's order can only be returned with the express approval of Mico Bathrooms.
- II.** Requests to return goods must be submitted within 10 days from the date of supply and the original invoice number must be quoted.
- III.** Where goods are accepted for credit they must be returned in original condition, inclusive of all packaging.
- IV.** Mico Bathrooms reserves the right to levy a restocking fee against any returns they may agree to accept. Such fees may be up to 20% of the invoice price and levied at Mico Bathrooms' absolute discretion.
- V.** Goods specifically imported, procured or manufactured on behalf of the buyer can only be returned on such terms and conditions as Mico Bathrooms agrees.

# EXCLUSIVE BRANDS

More than any other room in your home, your bathroom is your personal, private sanctuary.

For you to imbue that sanctuary, that very private space, with the perfect blend of sophistication, functionality and personal style, Mico Bathrooms offers a range of top-quality, exclusive brands from a select list of preferred suppliers. Drawing on customer and staff feedback, and backed by more than a century's knowledge of plumbing products and brands, Mico Bathrooms has carefully chosen these leading national and international brands to meet the needs of New Zealanders and the unique conditions of our beautiful country.

As you choose your bathroom fittings, your plans and dreams will be inspired and developed through the expertise and support of Mico Bathrooms' staff and the skilled tradesman who undertake the installation.

## RAYMOR

Raymor's comprehensive bathroom range will complement any style of bathroom in any New Zealand home – from character charm to contemporary cool.

Simple, modern design, fine engineering and value for money distinguish the Raymor collection, with new developments continually being introduced. The newest addition offers all pressure tapware – a further example of the company's commitment to meeting the requirements of its New Zealand customers. All Raymor tapware has a 25 year warranty\*

## KOHLER

A focus on bringing a combination of quality and distinctive style to its range of bathroom products has seen Kohler grow and develop to become a world leader in the industry. Founded in America in 1873, the company has continually set new standards in design, craftsmanship and innovation.

As a result, their selection of bathroom products offers diversity, functionality and singular quality across a broad range of price points, meaning dreams can be fulfilled no matter the budget.

## ADESSO

World-class Adesso bathroom products manufactured by world leaders in the industry bring sought-after European styling to New Zealand within an affordable price range. For those seeking a sleek, contemporary bathroom the Adesso range offers edgy, minimal design whilst at the same time being functional and always tasteful. Manufactured globally and engineered to exacting standards, the Adesso range of toilets, basins, baths, furniture, accessories and tapware are designed to meet the demand for performance, quality, and value for money. Adesso presents an integrity of design that never disappoints. All Adesso tapware has a 35 year warranty\*

## PAFFONI FONTE

Expertly crafted in Italy, the centre of design innovation. This range of quality tapware is produced by a family-owned company established in northern Italy almost 60 years ago. Its two tapware divisions, Rubinetteria Paffoni SPA and Fonte Water House, create both classic and contemporary tapware, which they export to over 30 countries. Renowned for strong design Paffoni tapware represents absolute value for money, while Fonte produces cutting-edge, contemporary tapware tooled from solid brass. Between them these Italian brands offer tapware for every style of home, from traditional to truly modern.

Escale bath by *Kohler*

# VANITIES

## DESIGN CONSIDERATIONS

The ultimate purpose is to wash, clean and store.

### IMPORTANT TIPS

- When designing their bathroom most people start by choosing their tiles and colour scheme, so in order to make the right colour choice for the vanity, it's a good idea to take a tile with you. For example, the Adesso vanity in Gun Metal is a popular choice to complement white or grey-tone tiles.
- Consider mirrored cabinets for extra storage space, as well as assisting and accommodating your daily beauty regime.
- The perfect vanity takes time to be built - this requires your attention early in the selection process to minimise delays and avoid complications to your renovation or new build.

# TAPWARE

## DESIGN CONSIDERATIONS

Mico takes pride in offering tapware brands with proven quality for all budgets. This has been crucial when developing an impressive selection of New Zealand and International brands such as Kohler, Raymor, Paffoni, Fonte, Adesso and Hansgrohe. Feel confident asking the experts at Mico. We are here to guide you to the best solution for you and your home.

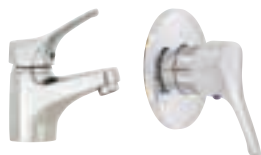

In the world of tapware there is a perfect tap for every style, function and budget. The design of the bathroom will influence the style of tapware you choose.

**SOME IMPORTANT QUESTIONS TO ASK YOURSELF ARE:**

- Do I use this tap a lot and is it nice to touch and manoeuvre?
- What don't I like about my current tapware?
- Does it work with the style of my vanity?
- Is it going to work with my current water pressure?
- Do young children or elderly use the tapware?
- Does it provide good warranty?

# KITCHEN TAPWARE

## DESIGN CONSIDERATIONS

Cooking has long been more than just a routine task, it encourages social gatherings shared with friends and family. The kitchen is considered to be the heart of a home; increasingly sophisticated kitchen tools and the propensity to experiment with world cuisine both mean that an efficient delivery of water is essential to a well functioning kitchen.

### WHAT MAKES A GOOD KITCHEN TAP?

Your tapware can be the centrepiece or a low-key functioning tool for your kitchen. Looks do matter, however the best designs hold intelligent functions and sensuous ergonomics. Functions include pull out spray for ease of use when preparing the vegetables, to filling up that vase that won't fit under the spout. Ergonomic handles help arthritic hands. A solid cast, brass spout with minimal grooves can eliminate food build up and will stand the test of time in a busy

family home. The better the quality of the cartridge, the better your tap will perform under high use. Looking after your tap is just as important as selecting a well made tap - warm soapy water is all that is required. Household cleaners may actually damage your tapware. The options are endless for design and functionality.

Ask a consultant at your Mico showroom for a demonstration.

# SHOWER TAPWARE

## DESIGN CONSIDERATIONS

Shower tapware is the single most important decision when selecting fittings for your bathroom. Why? Get it right and every day you will enjoy a wonderful showering experience and start your day relaxed and refreshed.

Shower tapware requires planning and a good understanding of the household's needs before selection can take place; for example a family bathroom shower needs to have an element of water efficiency for high use and also deliver a good shower in a short time frame.

Think about who will actually use the shower as the tapware will need to meet the needs of all of its users. Consider the following:

- Rail length
- Position
- Adjustability
- Spray pattern
- Water usage

Understanding your water pressure and selecting the correct mixer helps to make your shower experience more efficient and pleasurable.

Unequal Pressure is a common situation for renovated homes. Your shower mixer will need to equalise the higher flow of the cold to the hot before it can deliver a comfortable shower temperature for the lower pressure. There are many options available and we can help you find the right solution.

Mains Pressure is the ultimate in water efficiency and function – if you get the opportunity to upgrade your water system to mains, it will prove to be a good investment that will not disappoint. Most taps will work well on mains pressure. WELS Rating is a great tool to guide you for water efficiency.

**Ask the experts at Mico. If you get the opportunity, try before you buy!**

# SHOWERS

## DESIGN CONSIDERATIONS

When considering what kind of shower you want, think about the dynamics of the space and size available. Ask yourself about usability and what kind of door or entry system is required. With many technical features like multi-jets and shower-heads, showers range from economical efficiency to the all-out decadence of a total body spa. One thing to look for in a quality shower is a high tile tray lip to provide a good water seal.

### FUTURE PROOFING SHOWERS

When you're at the planning stage of the bathroom, consider all options for the shower area and acquire the services of a reputable installer.

Important - the shower needs to be watertight against the walls. All shower options available in New Zealand will stand the test of time, providing they are installed correctly and offer a NZ safety standard for the glass. It gets increasingly expensive to make changes, as each stage is completed.

TIP - put extra bracing in the walls if you think you may want to add a grab rail, shelf or seat later on. A glass door or screen requires good bracing. Stand in the space to mark out where you want the shower nozzle to come from and a comfortable height for the mixer.

If you want a tiled recess for soaps, shower gels and shampoos, that needs to be considered before the lining goes in. It will be too late once the walls are tiled.

You may want a spacious shower but will you be warm with all that airflow around you - select a fan heater and extractor suitable for the size of your bathroom (pg 79).

Ask the team at Mico. They can recommend qualified installers that they work with, who can help you plan your shower space to maximise your needs for now and in the future.

### SHOWER WALL OPTIONS

There is a variety of wall options for you to choose for your shower.

**Frameless showers** create space and simplicity against a tiled wall. Note that frameless showers may leak water through the gaps between the glass and tiles unless a drip strip is added.

**Flat, side & corner contours** - one piece, seamless acrylic wall lining for your complete storage system and easy cleaning.

**Acrylic walls** - many options available with a variety of sizes, with or without corner soap and shelf recess and shaving foot rests, all for easy cleaning.

# BATHS

## DESIGN CONSIDERATIONS

Bathrooms come in many different shapes and sizes and so do baths. So when designing your new bathroom make sure that the bath you want fits. Not all walls can be assumed to be absolutely vertical or square so make sure that you measure the distance between the walls at the height at which the bath will be at its longest and widest. Also when measuring unplastered or untiled walls make sure you take the finishing depth into account before choosing a bath.

Baths are the essence of luxury for the homes of today. It could very well be the deal-breaker for buying a home. Bathing can help you relax and wind down at the end of a busy day and offers routine to a family with small children.

Consider style, function and materials when choosing a bath.

- **Style** – drop-in or freestanding.
- **Function** – bubble massage, spa, hydro, chromatherapy.
- **Materials used** – acrylic, poly marble, quarry cast, stone composite, pressed steel, lithocast and cast iron.

### RAYMOR BOSTON

# BASINS

## DESIGN CONSIDERATIONS

A basin can often be a pivotal feature. It allows you to cater for your bathroom functionality needs, whilst helping you achieve that cutting-edge look that you may have seen in a magazine.

Basins and vessels need to be practical, attractive and accessible to everyone. Consider who will be using it. Will it just be for washing hands and cleaning teeth, or will there be a man using it for a wet shave? The installation and positioning are important when interpreting these needs, so try before you buy if possible. Options such as self-rimming, vessel, under-counter, inset, wall hung or pedestal offer solutions to all requirements.

Basins come in many styles from traditional to minimalistic and come in a variety of materials such as china, cast bronze, brass, glass, composite stone and quarry cast. They offer a warranty of five years or more.  
Note: Vessel basins require non-standard basin mixers, such as wall mounted or tall basin mixers.

**KOHLER KAMALA\***  
Vessel Basin / Cast Bronze basin with Living finish / Detailed design inspired by ancient tribal rain drums  
**\$6629** | Vessel 503mm **588569**

Edge Wall Hung Toilet Suite by *Adesso*

# TOILETS

## DESIGN CONSIDERATIONS

How do you know which toilet is going to suit you? It's best to sit on them. Sometimes a toilet can look fabulous in design, but it is not really that comfortable. Test how the seat lifts. Some seats are warmer and softer to the touch. Thankfully soft closing seats are now included with most toilet suites.

No one toilet fits all. Talk to the team at Mico; they are here to find the right solution for you. Toilets come in a variety of styles, it is important to choose the right one to suit your bathroom.

**Back to Wall** - These toilet suites sit flush to the wall therefore the inlet and waste pipes can be concealed and cleaning is easy.

**Close Coupled** - The toilet cistern sits near the wall and the rear of the pan is offset from the wall.

**Wall Hung / Wall Faced** - Only the toilet pan is visible and the cistern is concealed behind the wall.

**Comfort Height Toilets** - Increased pan height for your comfort.

Bianco Freestanding Bath by **Adesso** and Torino Bath Filler by **Raymor**

# ACCESSORIES

## DESIGN CONSIDERATIONS

Many accessories are now designed with a bathroom range in mind and a focus on aesthetics as much as technical functionality - they are designed to match particular tapware, toilets and sanitary-ware.

These are the finishing touches for your bathroom, so don't skimp, and make sure the style is in keeping with the other products. If it's a new build, make sure you advise the builder of where you want to place the accessories so extra wood can be put behind the wall for added strength.

- RAYMOR BOSTON**
