

ADESSE

European styling. Affordable pricing.

ADESSEO

It is Adesso's vision to capture the best in modern European styling and bring it to the New Zealand market at an affordable price.

For a long term investment such as a bathroom, it is important that new product designs are not only in tune with the latest design trends, but also stand the test of time.

Thanks to Adesso's high level of design expertise and brand quality, you can choose from a remarkable range of European inspired products built to look good and last.

URBAN FINISHES

Thermofoil:

Thermofoil wrapped cabinets feature a brilliant hard surface, providing excellent resistance to knocks, chips and fading, making your vanity look brand new for years to come. The totally seamless panels ensure these furniture designs are kept fully water resistant in a wet bathroom environment and are a pleasure to clean.

The Urban range is available in three of New Zealand's most popular high gloss finishes, all which are often mistaken for a perfect paint lacquer.

New Zealand Melamine:

Moisture Resistant MDF Melamine is an environmentally-friendly choice that offers a tough, scratch resistant surface, guaranteed colour evenness and consistent grain.

Laminex:

Melteca colours are available in a range of finishes. By adding a dimension of depth, textures create not only a visual but also a tactile sensation - essential for perfect style. The Pure grain finish, creates a strong texture which not only looks like natural wood but feels like it too.

STUDIO

With a modern style and unique basin design, Adesso's Studio vanity range creates an air of inner-city chic.

Studio wall hung vanity in white with the Mila basin mixer to complete

With clever design and distinctive lines, the Mila basin mixer is a superb example of modern European styling

MILA

Mila's bold accents, distinctive lines and modern European styling is suitable for all pressure. All tapware and shower mixer engines are made of solid DZR brass and finished in chrome.

BASIN MIXER

(7)686610

Made from solid DZR Brass with a chrome finish. Pivoting aerator. European made 35mm cartridge with anti scald, flow limiter. Suitable for all pressures (min 35kPa and up to 1500kPa).

Low/Unequal Pressure WELs Rating 4★
Low/Unequal Flow Rate - 7.5 L/min

BASIN MIXER MINI

(7)711716

Made from solid DZR Brass and finished in polished chrome. Pivoting aerator. European made 25mm cartridge with anti scald, flow limiter. Suitable for all pressures (min 35kPa and up to 1500kPa).

Low/Unequal Pressure WELs Rating 5★
Low/Unequal Flow Rate - 5 L/min

BATH SPOUT

(7)686616

170mm spout reach.
Made from solid DZR Brass and finished in chrome. 1/2" Female Easy Fit Adaptor spout for maximum flow. All pressures (min 35kPa and up to 1500kPa).

SHOWER MIXER FUSION PLUS

(7)706461

Made from solid DZR Brass and finished in Chrome. NZ designed mixing valve with anti scald, flow limiter control. All pressure shower mixer, easy upgrade to mains pressure with front of wall removable venturi jet. (min 35kpa and up to 1500kpa)

SHOWER MIXER FUSION

(7)686613

Made from solid DZR Brass and finished in Chrome. NZ designed mixing valve with anti scald, flow limiter control. All pressure shower mixer, removable venturi jet. (min 35kpa and up to 1500kpa)

SINK MIXER

(7)711717

Made from solid DZR Brass and finished in polished chrome. Pivoting aerator and 360° swivel base. European made 35mm cartridge with anti scald, flow limiter. Suitable for all pressures (min 35kPa and up to 1500kPa).

Low/Unequal Pressure WELs Rating 4★
Low/Unequal Flow Rate - 7.5 l/min

SINK MIXER TOUCH SINK MIXER

(7)690390

Introducing the new Mila Sink Mixer with Touch Technology, an innovative and hassle free experience to turn on your sink mixer.

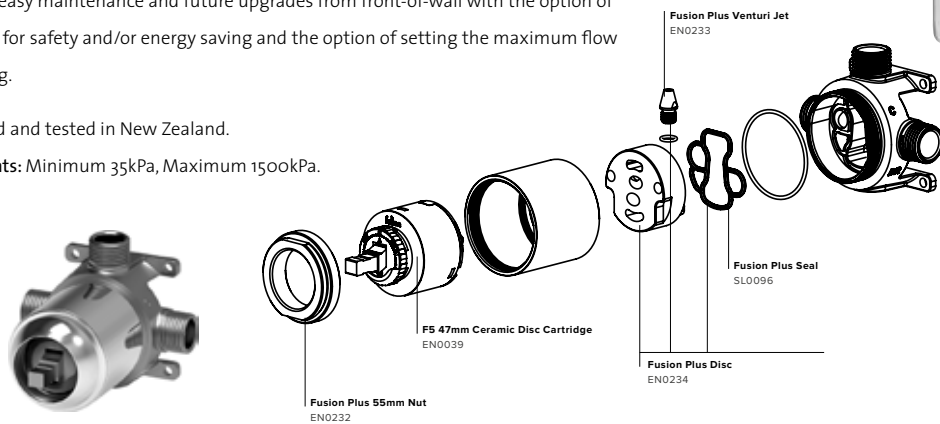

No need to touch handle with dirty hands. Single mode, handle not touch sensitive. Easy to install. Low sensitivity with cold only touch. 2 second water delivery. Energy saving and aquastop mode. 6V Lithium battery. Polyester braided hoses. Isolating seal and pivoting aerators. 360° swivel. 35mm Kerox cartridge. WELs – Low pressure 5.5L | 5 star /WELs – High pressure 6.5L | 4 star (Minimum 36kPa and up to 500kPa). Adesso touch Sink Mixer carries limited warranty on electronics.

VALVE TECHNOLOGY MILA

SHOWER MIXER FUSION PLUS

The Mila Fusion Plus high performance valve is suitable for all water pressures, providing optimal flow. The valve allows for easy maintenance and future upgrades from front-of-wall with the option of temperature control for safety and/or energy saving and the option of setting the maximum flow limit for water saving.

Designed, assembled and tested in New Zealand.
Pressure requirements: Minimum 35kPa, Maximum 1500kPa.

SHOWER MIXER EQUAL PRESSURES

(7)707314

Made from solid DZR Brass and finished in Chrome. NZ designed mixing valve with anti scald, flow control. Equal pressure shower mixer, suitable equal high (mains) and equal low pressure. (min 35kpa and up to 1500kpa)

SHOWER MIXER DIVERTER - VERSADISC

(7)686615

Made from solid DZR Brass and finished in Chrome. NZ designed mixing valve with anti scald, flow control. European diverter shower mixer, easy front of wall upgrade to mains pressure. (min 35kpa and up to 1500kpa)

SLIDE SHOWER

(7)711718

Designed to compliment Adesso Mila shower mixer. Single function slide shower is fitted with metal slide rail, square elbow and EN1113 rated large bore hose. All pressures (min 35kPa). 7 Year Warranty.

Low/Unequal Pressure WELs Rating 2★
Low/Unequal Flow Rate - 10 l/min

SHOWER MIXER FUSION

An affordable, economic valve, the Mila Fusion gives you the option of temperature control for safety and/or energy saving while allowing the option of setting the maximum flow limit for water saving. Suitable for all water pressures allowing for optimal flow, it is suited to both shallow or standard wall depths.

Designed, assembled and tested in New Zealand.
Pressure requirements: Minimum 35kPa, Maximum 1500kPa.

EDGE

Edge’s square cut minimalist, modern European styling is suitable for all pressures (min 35Kpa). The basin and sink mixers are made of solid brass and the shower mixers are brass, with all tapware finished in chrome.

BASIN MIXER

(7)686618

Made from solid Brass construction, with a chrome finish.
Spout reach 116mm.
Suitable for all pressures, min 35Kpa.

Low/Unequal Pressure WELs Rating 3★
Low/Unequal Flow Rate - 8.2 L/min

SHOWER MIXER

(7)686619

Made from solid Brass construction, with a chrome finish. Square style handle with hot & cold indicator. Large & small faceplates included. Incorporates Intelligent Valve Technology for optimum showering performance. Suitable for all pressures, min 35Kpa.

SINK MIXER

(7)686620

Made from solid Brass construction, with a chrome finish.
Spout reach 192.5mm.
Suitable for all pressures, min 35Kpa.

Low/Unequal Pressure WELs Rating 3★
Low/Unequal Flow Rate - 8.2 L/min

SHOWER MIXER DIVERTER

(7)686621

Made from solid Brass construction, with a chrome finish. Square style handle with hot & cold indicator. Incorporates Intelligent Valve Technology for optimum showering performance, and fast bath fill. Suitable for all pressures, min 35Kpa.

URBAN

Urban’s classic European styling with square accents is suitable for all pressures (min 35Kpa). The basin and sink mixers are made of solid brass and the shower mixers are brass, with all tapware finished in chrome, black or brushed nickel.

Switch three function column shower, featuring a built in diverter with a polished chrome, black, or brushed nickel finish.

WELS Rating 3★
Flow Rate - 7 L/min & 8L/min (Overhead)

VALVE TECHNOLOGY URBAN

The Urban Multipressure shower mixer has integrated isolator/balancing valves for unequal water pressure systems, and an incorporated wall bracket for easy fixing. This valve will work across multiple water systems, Unequal, Equal High & Equal Low. All Urban & Edge faucets are supplied with large bore hot water hoses to maximise hot water flow if used on an unequal pressure system, an Aerator plus Flow Straightener to suit low or high pressure water systems, and an adjustable flow control valve that when fitted to the Cold Water supply increases the ability to control the water flow to optimise the faucets performance.

Pressure Rating

Mains Pressure Equal = Max 500KPA – Min 150KPA
Low/Unequal = Max Cold 500KPA – Min 35KPA

Shower Mixer Flow Rates

Mains Pressure = 8.5L/m (matched with a WELS 3 Star shower)
Low/Unequal = 7L/m Urban & 8.5L/m Edge (matched with a WELS 3 Star shower)

EDGE & URBAN SHOWER BATH DIVERTER MIXER

All the features of the IVT Multipressure shower mixer including being able to be used in Mains, Low, and Unequal pressure systems, combined with a Diverter Button that allows you to switch from your shower to your spout when used in a shower over bath situation, or can be used to control the function of a slide shower and an overhead shower in a dual shower installation.

Pressure Rating

Mains Pressure Equal = Max 500KPA – Min 150KPA
Low/Unequal = Max Cold 500KPA – Min 35KPA

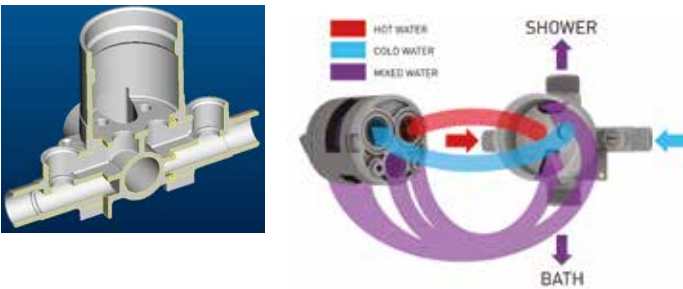

Shower/Bath Mixer Flow Rates

Shower Mains Pressure = 8.5L/m (matched with a WELS 3 Star shower)
Bath 50L/m (minimum 350KPA required to achieve maximum flow rate)
Shower Low/Unequal = 8.5L/m (matched with a WELS 3 Star shower)
Bath = 22L/m

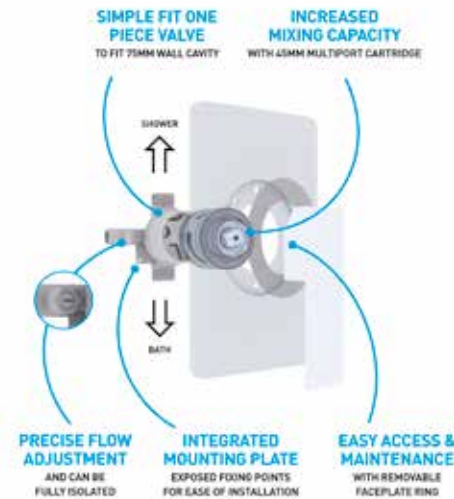

VALVE TECHNOLOGY EDGE

IVT Multipressure shower mixer includes all of the features of the Urban shower mixer and turbocharges them!
The 45mm Multiport Sedal Cartridge, and the specifically designed for New Zealand water systems Edge body, combine to produce maximum flow rate in a low and/or unequal pressure water system situation. The one piece valve has been designed with no additional parts or alterations required. The plumber simply fixes the valve securely using the incorporated mounting plate, attaches the hot and cold water supply and if necessary adjusts the integrated flow control valves to suit your water system. Using the large faceplate provides easy access to the isolator/control valves if ever you need to re-adjust the water flow (ideal if you have a low pressure system but are changing to mains pressure, no other alteration would be required) without compromising any water seal integrity. As an option if you want a more minimalist look, a smaller faceplate is included (note that this may compromise access to fully remove the valve from the wall cavity if ever required), creating a more refined and simple style.
An additional feature of the Edge shower mixer is the bath outlet. Using the valve with a bench or wall mounted bath spout (must be used as a shower or bath mixer, not both at once) the plumber can cap off the shower outlet and the large volume of water the IVT allows to pass through can deliver as much as 50 litres per minute, filling your bath in no time.

Multi Pressure Shower Mixer

An easy fit one piece shower valve with Intelligent Valve Technology (IVT), designed in New Zealand to perform better across multiple water pressures.

EDGE

The Edge toilet suites exude an edge of sophistication and style. Classic and timeless design, enhanced with modern nuances and lines.

DISCLAIMER

Adesso has a policy of continual improvement of its products and reserves the right to make alterations in engineering, dimensions, design, specifications and product lines without prior notice.

All measurements are in millimetres and are nominal only.

All information contained in this brochure should serve as a guide only and is subject to change without notice. Adesso does not invite any person to act or rely upon such information and liability for such information is excluded. Without limitation colours, styles and brands shown in this brochure are indicative only and should not be relied upon. No representation is made regarding the types of use or availability of such items from stores. Ancillary products in this brochure such as tapware, bathroom furniture and bathroom accessories are shown for marketing purposes only and may not be available in New Zealand.

See our showroom consultants for full warranty, guarantees and additional product specifications.

Adesso (or their approved retailer) reserve the right to assess, repair, replace or service any warranty claims as they see fit.

Adesso will endeavour to repair or replace the faulty product(s), subject to investigation and the following requirements;

- warranty claim must be submitted within the warranty period and Adesso (or their approved retailer) must be notified in writing, within ninety (90) days of the issue first appearing
- proof of purchase is required
- product(s) must be installed by the relevant tradesperson and maintained in accordance with the manufacturer's instruction.
- the product(s) are to be used for normal, domestic use only

This warranty DOES NOT APPLY if any product(s) fault results from;

- improper use, improper installation
- where damage is caused by normal wear and tear, the water pressure is outside the recommended levels, where the hot water temperature exceeds 55°C

Or if any of the following are not observed;

- Applicable Health Act.
- any regulation or other standards which governs the water supply and sewerage plumbing requirements for installation in a particular area or location.

The warranty is limited to the replacement of defective parts only.

Excluded from the warranty;

- labour charges and/or damage incurred during incorrect installation, repair or consequential damage, or otherwise suffered or incurred by any such person
- any defect or injury caused by or resulting from misuse, abuse or neglect, accidental damage, improper installation or other alterations or modifications which affect the reliability or performance of the item, not attributed to faulty manufacture.
